

Data Sheet: Optional Duerselen hole drilling module HDM-100

The **HDM-100 hole-drilling module** may be installed on the end of all Smart-binder SB-2 and SB-3 systems in order to **drill a number of holes** into each book.

The advantage of the HDM-100 over the optional hole punching module [CHP-100](#) is that the HDM-100 can insert holes in books **up to the Smart-binder maximum of 10mm thickness**.
